INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Veazie Sewer District

We have audited the accompanying financial statements of net position, statements of revenues, expenses and changes in fund net position, and statements of cash flows of the Veazie Sewer District as of and for the years ended May 31, 2018 and 2017, and the related notes to the financial statements, which collectively comprise the Veazie Sewer District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Veazie Sewer District, as of May 31, 2018 and 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

**Veazie Sewer District
Management's Discussion and Analysis
May 31, 2018 and 2017**

Introduction of the Financial Statements

The Veazie Sewer District (the District) furnishes sewage collection and treatment services in the Town of Veazie. The District's basic financial statements include the:

- Statements of Net Position
- Statements of Revenues, Expenses and Changes in Fund Net Position
- Statements of Cash Flows
- Notes to the Financial Statements

The statement of net position presents the financial position of the District by providing information about the nature and amount of resources and obligations at year-end. The statement of revenues, expenses and changes in fund net position presents the results of the business activities over the course of the fiscal year and information as to how the net position changed during the year. The statement of cash flows presents the amount of cash and cash equivalents generated and used during the fiscal year. The notes to the financial statements present required disclosures and other information that are essential to a full understanding of the material provided in the statements.

Net Position – End of Year	<u>2,550,680</u>	<u>2,620,411</u>

Overall Financial Position and Results of Operations

To analyze the change in the District's overall financial position and results of operations in the past year, we have focused on two elements: revenue stability and financial ratios.

Revenue Stability:

Sewer rates are set to maintain operations, pay debt service and fund reserve accounts. The District's primary sources of operating revenues are an assessment to the Town of Veazie, user usage fees and debt service and capital fees. Overall, operating revenues decreased \$3,168 or 0.75%. Approximately 14% of total operating revenues are generated from the assessment to the Town of Veazie.

Financial Ratios:

Two of the key financial ratios for analyzing the District's financial position are the current ratio and the coverage ratio. The current ratio measures an entity's ability to meet short-term obligations. The coverage ratio shows an entity's ability to meet debt service payments. During fiscal year 2018, the current ratio decreased from 4.88 to 4.60. During fiscal year 2018, the coverage ratio decreased from 2.52 to 1.98.

Current Ratio

	2018	2017
Current Assets	321,724	351,098
Current Liabilities	69,891	71,961
Current Ratio	4.60	4.88

Total Debt Service Payments	<u>58,267</u>	<u>58,277</u>
Coverage Ratio	<u>1.98</u>	<u>2.52</u>

Budgetary Highlights

The District is not legally required to adopt budgetary accounting and reporting; however, an annual budget is prepared by management and approved by the Board of Trustees. There were no significant variations between original and final budget amounts. Overall, the District operated within its total approved budget for fiscal year 2018.

Capital Assets and Long-Term Debt

Capital asset additions in fiscal year 2018 were: plant equipment totaling \$14,742, collection system equipment totaling \$32,162, collection system totaling \$14,525 and lab equipment totaling \$1,151. Capital asset additions in fiscal year 2017 were: collection system equipment totaling \$12,961 and collection system totaling \$7,473.

Long-term debt outstanding at May 31, 2018 and 2017 is \$674,282 and \$715,488, respectively. Debt retired in fiscal year 2018 and 2017 totaled \$41,206 and \$40,376, respectively. No new long-term debt was issued in fiscal year 2018 or 2017.

At May 31, 2018 and 2017, the District had committed to and signed construction contracts which remained incomplete with a remaining balance of \$342,152 and \$0, respectively. There are no debt limitations that may affect future financing at May 31, 2018 and 2017. There were no changes in credit ratings in fiscal year 2018 and 2017.

Significant Transactions and Changes

The District collects, treats and discharges the sanitary sewage for the Town of Veazie. The treatment plant collects an average of approximately 174,000 gallons per day of wastewater from homes and businesses throughout town. This wastewater is then treated to meet regulatory requirements from the State of Maine and subsequently discharged into the Penobscot River. In September of 2017 the District submitted a renewal application for a discharge of wastewater permit for a period of four (4) years. The permit was approved in early January of 2018, with a reduction in testing requirements for carbonaceous biological oxygen demand (CBOD) and total suspended solids (TSS) from four (4) times a month to two times a month. An achievement of the District's staff to better the environment was recognized by the Department of Environmental Protection Agency.

The District is working on the following three projects:

First, the District, Orono Veazie Water District and the Town continue to collaborate on projects where all three entities have the need to upgrade. During the summer of 2018, in conjunction with the Town and Orono Veazie Water District, the District is upgrading a section of sewer main on Davis Drive and Wedgewood Drive. The District is considering the use of a trenchless technology that will line the current A/C pipe with spiral wound fiberglass material. This will reduce the amount of digging needed, thus speeding up the project.

Second, the District is working on and approving plans to replace the sewer main on Oak Grove Street in late spring, or early summer of 2018.

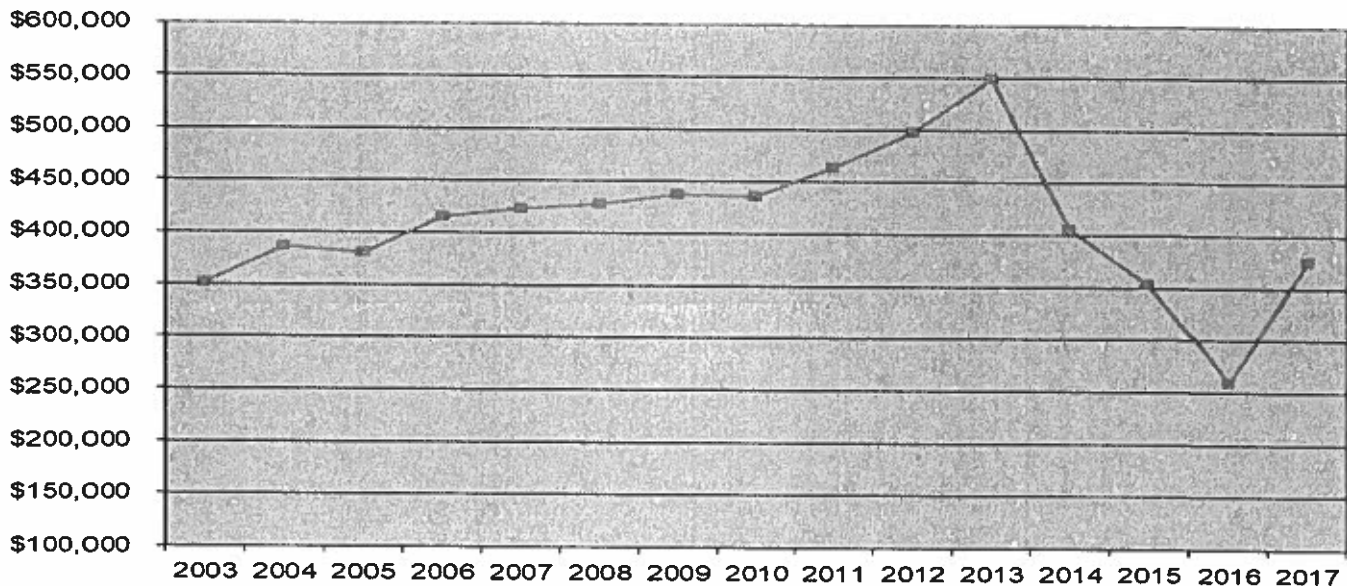

Third, the District is currently working with the developer of the proposed Chase Road Subdivision. If approved by the Planning Board, the new subdivision may bring an estimated additional 15,000 gallons per day to the plant for processing.

As always, the District staff continues to address regular cleaning, videoing, repairing and maintaining the collection system, two pumping stations, the treatment facility, DEP required testing, record keeping and the billing and collection of quarterly user fees. The staff is on-call 24 hours a day to handle any emergencies, which typically occur when the weather is at its worst. The staff of the District encourages anyone to call who has questions, or would like to tour the facility and see how the District is working to improve our environment. You also can visit our website at www.veaziesewerdistrict.com.

The District is working to rebuild reserve funds to the recommended target of \$300,000. The District continues to work toward the goal of eventually eliminating the assessment to local property taxes. The previously undefined tax assessment peaked at \$150,000 per year and was reduced starting in fiscal year 2013-14 to \$110,000. The assessment was again reduced to \$96,500 the following year, and then even further to \$74,000 in 2015. The assessment for this year is estimated to be \$60,000, the same as 2017. Since 2012, the assessment to the Town of Veazie has been reduced by 60%, or \$90,000.

Significant Transactions and Changes (Continued)

**Total Expenses
Cash Cost of Plant Operation**

Next Year's Operations

In fiscal year 2019, the District will maintain the annual assessment to the Town of Veazie at \$60,000. The District will also be completing a 10 year capital improvement plan.

The District will be completing a \$370,000 infrastructure project on Oak Grove Street in fiscal year 2019. The project is funded by a thirty-year bond with 1.00% interest through the Clean Water State Revolving Loan Fund administered by the Maine Municipal Bond Bank.

Request For Information

Questions about the District's finances and activities may be directed to Dana McLaughlin, Superintendent, 34 Hobson Avenue, Veazie, Maine 04401. Phone: 207-942-1536.

Note 1: Summary of Significant Accounting Policies

The Veazie Sewer District's (the District) financial statements include the operations for which the Board of Trustees exercises oversight responsibility. Oversight responsibility is demonstrated by financial interdependency, designation of management, ability to significantly influence operations, and accountability for fiscal matters.

Business Activity

The District furnishes sewage collection and treatment services in the Town of Veazie. Its accounting policies conform to generally accepted accounting principles as applicable to quasi-municipal units, which utilize the accrual basis of accounting. The major sources of revenue are user usage fees, user debt service and capital fees and an assessment to the Town of Veazie. Revenue is recognized in the period when earned.

Reporting Entity

In evaluating how to define the District for financial reporting purposes, management has considered all potential component units. Based on the applicable criteria, there are no other entities within the District that should be included as part of these financial statements. There are no fiduciary funds included in the District.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Restricted Resources

The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

Deposits and Investments

Maine Statutes authorize investments in obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements, corporate stocks and bonds within statutory limits, obligations of financial institutions and mutual funds. The District has not formally adopted deposit and investment policies that limit the District's allowable deposits or investments and address the specific types of risk to which the District is exposed beyond Maine Statutes.

Note 1: Summary of Significant Accounting Policies (Continued)

Cash, Cash Equivalents and Custodial Credit Risk

For purposes of these statements, the District considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. All cash is considered available for current use at May 31, 2018 and 2017. Custodial credit risk is the risk that, in the event of the bank's failure, the District will not be able to recover the value of its deposits and investments that are in the possession of an outside party. The District does not have policies addressing custodial credit risk.

The District's deposits are categorized as follows to give an indication of the level of risk assumed by the District at year end: Category 1 includes deposits covered by federal depository insurance or by collateral held by the District or by the District's agent in the District's name; Category 2 includes uninsured deposits covered by collateral held by the pledging financial institution's trust department or agent in the District's name; and Category 3 includes uninsured and uncollateralized deposits.

At May 31, 2018, cash on deposit consisted of the following:

	Carrying Amount	Bank Balance	Category 1	Category 2	Category 3
Unrestricted	29,855	52,301	52,301	-0-	-0-
Board Designated	272,589	272,589	272,589	-0-	-0-

At May 31, 2017, cash on deposit consisted of the following:

	Carrying Amount	Bank Balance	Category 1	Category 2	Category 3
Unrestricted	55,083	55,570	55,570	-0-	-0-
Board Designated	266,254	266,254	266,254	-0-	-0-

Board designated cash are funds that have been designated by the Board of Trustees for debt service payments and capital asset replacements.

Accounts Receivable

Accounts receivable are stated at net realizable value. No allowance for doubtful accounts has been recorded in the financial statements; uncollectible accounts are written off in the year in which they are deemed to be uncollectible. Generally accepted accounting principles require that the allowance method be used to recognize bad debts. The effect of using the direct write-off method has not been materially different from the results that would have been obtained under the allowance method.

Note 1: Summary of Significant Accounting Policies (Continued)

Property, Plant and Equipment

Property, plant and equipment are stated at cost. Donated property is recorded at its estimated fair value at the date of donation. Depreciation has been provided on a basis considered adequate to amortize the cost of depreciable assets over their estimated useful lives on the straight-line method at rates from 2% to 20%. Annual rates in use are as follows:

Buildings and Pump Station	2.5% - 3.3%
Collection System	2.0%
Vehicles	10.0% - 20.0%
General Equipment	10.0% - 20.0%

Land costs are not being depreciated because they have indefinite useful lives.

Capitalization Policy

Expenditures that materially increase values, change capacities, or extend useful lives are capitalized. The amounts charged to utility plant accounts represent all reasonable and necessary costs, including labor, materials, overhead, equipment charges and interest costs incurred. Routine maintenance and repairs are expensed as incurred. The District does not have a policy setting a minimum capitalization threshold for amount or lives for reporting capital assets.

Measurement Focus, Basis of Accounting and Basis of Presentation

The District follows Governmental Accounting Standards Board (GASB) Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. This Statement provides specific guidance as to which FASB and AICPA pronouncement provisions should be applied to state and local governments. The District prepares its financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America for proprietary funds, which are similar to those for private business enterprises. Proprietary funds are accounted for on the flow of economic resource measurement. Accordingly, revenues are recorded when earned and expenses are recorded when incurred. Proprietary funds distinguish operating revenues and expenses from non-operating activity. Operating revenues arise from providing goods or services to outside parties for a fee. Revenues and expenses that are not derived directly from operations are reported as non-operating revenues and expenses.

Note 1: Summary of Significant Accounting Policies (Continued)

Compensated Absences

The District reports compensated absences in accordance with the provisions of GASB Statement No. 16 *Accounting for Compensated Absences*. A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits. The District's personnel policy allows employees to carry unused vacation time to a maximum of 30 days or 240 hours. Employees also accrue sick leave at a rate of 1.25 eight hour days per month up to 120 days or 960 hours. The District's old policy allowed accrued sick time to be bought back at the employee's current rate of pay at the time of separation based on the number of years of service. This policy was changed and employees will no longer receive payment for accumulated sick time at separation. One employee was grandfathered under the old policy and is currently eligible to have a portion of accumulated sick leave paid out at the time of separation. If the employee uses all of his current sick leave time, he is eligible to use the grandfathered sick time should he need it. Accrued vacation is shown as a currently liability and the accrued sick time as a non-current liability. Activity for the accrued sick time liability, shown as a non-current liability, was as follows at May 31:

2016			2017			2018
Balance	Increases	Decreases	Balance	Increases	Decreases	Balance
2,888	-0-	-0-	2,888	-0-	-0-	2,888

Taxes

As a quasi-municipal entity, the District is not subject to federal and state income taxes, accordingly it is not necessary to consider the effects of any uncertain tax positions.

The District is subject to federal and state payroll taxes and is required to file the appropriate tax returns. Management believes that all required returns have been properly filed as of May 31, 2018 and 2017. No examinations have been conducted by the federal or state taxing authorities and no correspondence has been received from these authorities.

Budget

The District is not legally required to present budgetary comparison information as required supplementary information.

Note 2: Contingencies

There are no pending legal proceedings to which the District is a party that are material or are expected to have a material effect on the District's financial position, results of operations or cash flows.

**VEAZIE SEWER DISTRICT
NOTES TO FINANCIAL STATEMENTS
MAY 31, 2018 AND 2017**

Note 3: Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. The District participates in several public entity risk pools sponsored by Maine Municipal Association for the risks of losses to which it is exposed. There have been no significant reductions in the insurance coverage from the prior year. The District is not aware of any material actual or potential claim liabilities which should be recorded at May 31, 2018 and 2017. Settlements have not exceeded insurance coverage for each of the past three years.

Note 4: Interest Expense

No interest costs were capitalized during the period. The amount of interest costs incurred and charged to expense for the fiscal years ending May 31, 2018 and 2017 was \$16,922 and \$17,764, respectively.

Note 9: Related Party Transactions

During fiscal year ending May 31, 2017, the District paid \$400 to a Trustee for carpentry services related to removing and replacing a shed roof. There is no related party accounts receivable or accounts payable at May 31, 2017. There were no related party transactions during fiscal year ending May 31, 2018.

**VEAZIE SEWER DISTRICT
NOTES TO FINANCIAL STATEMENTS
MAY 31, 2018 AND 2017**

Note 10: Net Position

Net position comprises the various net earnings from operating and non-operating revenues, expenses and contributions of capital. Net position is classified in the following components: net investment in capital assets and unrestricted. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets and adding back unspent bond proceeds. The District's net investment in capital assets was calculated as follows at May 31:

	2018	2017
Total Property, Plant and Equipment	2,933,963	3,018,444
Long-Term Debt, Including Current Portion	<u>(674,282)</u>	<u>(715,488)</u>
Net Investment in Capital Assets	<u>2,259,681</u>	<u>2,302,956</u>

Unrestricted consists of all other net position not included in the above category. Included in unrestricted net position are board designated funds for debt service payments and capital asset replacements totaling \$272,589 and \$266,254 at May 31, 2018 and 2017, respectively.

Note 11: Retirement Plan

The District will make a 100% matching contribution to the IRA of any regular full-time and regular part-time employee who provides proof of an employee contribution to his/her IRA of at least 3% of compensation in a year. The maximum match by the District will be 5% of compensation as approved by the Board of Trustees. Total expense related to the defined contribution plan was \$2,038 and \$1,620 for fiscal years ending May 31, 2018 and 2017, respectively. Employee contributions totaled \$2,038 and \$2,220 in fiscal years ending May 31, 2018 and 2017, respectively. The Board of Trustees have authority over plan provisions, requirements and amendments.

Note 12: Commitments

In December 2016, the District entered into an agreement with Water Quality & Compliance Services Inc. for wastewater system management services. The agreement is ongoing and can be terminated at any time for any reason by either party. The amount paid to Water Quality & Compliance Services Inc. in fiscal year May 31, 2018 and 2017 totaled \$17,290 and \$8,039, respectively.

At May 31, 2018, the District had committed to and signed construction contracts which remained incomplete with a remaining balance of \$342,152.

**VEAZIE SEWER DISTRICT
NOTES TO FINANCIAL STATEMENTS
MAY 31, 2018 AND 2017**

Note 13: Subsequent Events

In preparing these financial statements, the District has evaluated events and transactions for potential recognition or disclosure through September 22, 2018, the date the financial statements were available to be issued.

The District has been approved for funding related to an infrastructure project through the Clean Water State Revolving Loan Fund administered by the Maine Municipal Bond Bank. The funding is a thirty-year bond at 1.00% interest totaling \$370,000. The bond will be issued in the fiscal year ending May 31, 2019.
